About US

Paramonos Research labs is one of the world's leading R&D / Management consulting firms. We work with top executives to help them make better decisions, convert those decisions to actions and deliver the sustainable success they desire. For years, we've been passionate about achieving better results for our clients—results that go beyond financial and are uniquely tailored, pragmatic, holistic and enduring.

We advise global leaders on their most critical issues and opportunities: strategy, marketing, organization, operations, technology, digital, advanced analytics, transformations, sustainability, corporate finance and mergers & acquisitions, across all industries and geographies. Our unique approach to traditional change management, called Results Delivery®, helps clients measure and manage risk and overcome the odds to realize results.

We've worked with the majority of the Global 500, thousands of major regional and local organizations, hundreds of nonprofits, and private equity funds representing 75 percent of global equity capital. We are proud of our clients' track record, like the fact that our public clients have historically outperformed the stock market 4 to 1.
