SERVICES WE OFFER.

Our services are highly effective, our approach refreshingly simple.

Our approach is refreshingly simple. All of our services are provided as either stand-alone projects or incorporated into a monthly support plan for one flat fee. This practical approach helps you achieve big marketing results, regardless of your size or budget.

MARKETING & BRAND STRATEGY

A brand's value is measured by how well it can differentiate itself from the competition, and its strength is measured by the impact it has on the company's ability to drive profits. We manage these encounters through a well-developed marketing strategy, informed by the actions and motivations of your stakeholders and key audiences. Our marketing creates the differences that properly positions your brand in the minds of those that matter most to you.

CREATIVE DESIGN & VISUAL IDENTITY

Corporate identities are a combination of color schemes, designs, and words that make a visual statement about your organization. Landing on the right corporate identity presents a significant challenge for companies, due to the difficulty involved in conveying complex ideas and emotions visually. Our talented designers create visual representations of your ideas and messages and we can also manage the branding process to help ensure your corporate identity is carried throughout all future advertising, social media profiles, websites, print stationary, and branded marketing collateral.

CONTENT MARKETING

Content marketing is the art of communicating with your audience without selling. We help clients focus on delivering information that educates, making your brand a resource for intelligent information. If we can capture the hearts and minds of an audience, they will reward you with their business and loyalty. Our process includes helping clients create, distribute, and manage this content across multiple communication and media channels, including press releases, email marketing, social media, blogs, websites, and video.

FACE TO FACE MARKETING

Trade shows and similar live events are great opportunities to showcase your company's services, reinforce your brand messaging to audiences in the industry, and provide opportunities to grow your business. We research and provide recommendations on appropriate regional and national events to attend and provide rental exhibit design and exhibit components to support your brand at these events. Participation in these live events can be supported by digital marketing services such as social media, video, and web.

MARKETING AUDITS

Achieving a sustainable competitive position starts by analyzing and evaluating your current marketing strategies, activities, and results. Our marketing audits help clients evaluate what's working and what's not, so they can capitalize on every possible advantage. The goal is to forge together a common vision for future marketing spend and activities to help your organization build internal consensus and reduce fragmented marketing efforts.

MARKETING PLAN AND POLICY DEVELOPMENT

Accountability is integral to the success of any strategic marketing plan. Strategic plans must provide a blueprint for employing the specific tactics that will help drive your company's overall business goals and objectives. Each of our plans is custom written and include best practices, benchmarking and goals, business development activities, budget recommendations, key roles and task assignments, as well as deadlines and operating procedures. We also help you deliver and execute these plans throughout the organization.
